

GUARDIAN automotive

ALL-IN-ONE AI DRIVER & FLEET SAFETY SYSTEM

FOR FLEETS & BUSINESSES

FHD DUAL LENS DASH CAM

Full telematics safety solution. Combines AI-ADAS (monitoring the road ahead) & AI-DSM (Driver Status Monitoring) preventing accidents caused by driver distraction/fatigue.

Dual lens for front facing and driver viewing
Supports up to 512GB - 64GB SD included
Lens angle 120° front / 150° internal | G-Sensor
H.55mm W.80mm D.124mm

OUTWARD CAMERA MONITORS:

Lane departure | Collision alarm | Distance/pedestrian detection

INWARD CAMERA MONITORS:

Driver behaviour | Fatigue | Smoking | Mobile phone use

CATCH DROWSY AND DISTRACTED DRIVING

Captures and reporting of distracted and drowsy driving. The DSM camera monitors driver eye movement and head angle to detect and alert on fatigue and distraction, so you can safeguard driver wellbeing and protect fellow road users before risk turns into regret.
